Engineered to Perform, Built to Last.

You'll find AG Neovo displays performing reliably in places where few would dare use a monitor. That's because unlike conventional desktop monitors, AG Neovo displays are created to meet the needs of demanding public and professional environments. Combining advanced technologies, innovative feature sets and a distinctive design, AG Neovo is changing how the world views displays.

Security & Surveillance

Security and surveillance operations around the world need equipment that matches the complex requirements of modern security systems, as well as stand up to the rigours of operating 24 hours a day, 7 days a week while preventing image burn-in. That is why AG Neovo provides the most comprehensive range of displays that are designed to deliver the flexibility and durability suitable for even the most stringent security environments.

Digital Signage

With more than 20 years of experience in display and video signal control solutions, AG Neovo provides digital signage solutions that are designed for 24/7 operation in all public environments. These solutions deliver a superior viewing experience and a high-level of protection with a wide variety of possible configurations perfect for retail, education, hospitality, transportation, corporations and healthcare institutions.

Professional Desktop / IT

AG Neovo offers a variety of display types, from everyday office use models with ergonomic stands and multitasking features to professional healthcare displays that are compliant with medical-grade certified power supplies to ensure their reliable performance. Attractive, durable and versatile, AG Neovo professional desktop and IT displays are designed to meet the demands of unique environments.

Video Wall

Using multiple panels working in tandem, video walls offer businesses the ability to make an immediate impact in public spaces by creating eyecatching experiences that draw the viewer's attention at first glance. At the same time, they also give businesses the opportunity to optimise their creativity and messaging by delivering enhanced visuals beyond that which is available with single-display signage. Furthermore, from massive walls to more intimate setups, the scalability of video walls guarantee that businesses are able to create customised solutions that suit their needs.

Meeting & Collaboration

Meeting room and interactive applications demand detailed and clear image presentation; by adding multitouch capability and 4K UHD resolution, a screen becomes the centerpiece for collaborative working environments with wireless presentation connectivity for instant participation. By partnering with unique software partners for content sharing and advanced collaboration, AG Neovo's all-in-one meeting & collaboration solution, the AG Neovo Meetboard™, offers all the tools needed for presenting, collaborating and sharing ideas right out-of-the-box.

NeoV™ Optical Glass

The most advanced and trusted hard glass protection available.

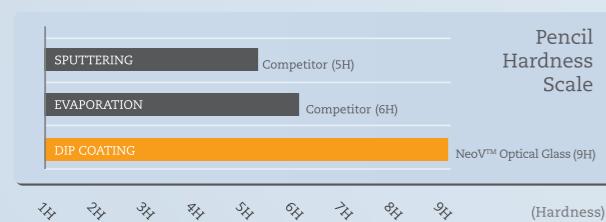

NeoV™ Optical Glass is a specially formulated, hardened optical – with a proprietary multilayer coating – to enhance image quality and protect the screen from any incidental damage incurred in high-volume environments.

Advantages of NeoV™ Optical Glass

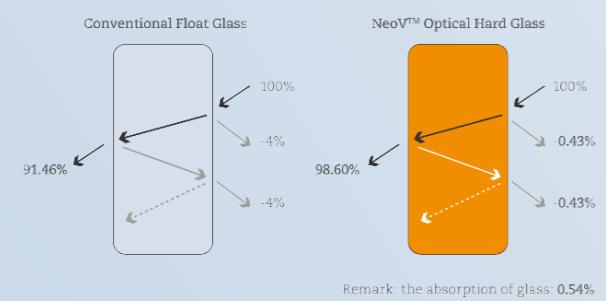

Anti-Scratch Surface

Provides unparalleled resistance to scratches; the coated surface of NeoV™ Optical Glass reaches 9H, the highest grade on the pencil hardness scale.

High Transmittance

Provides near perfect panel brightness with a 97.7% transmittance rate, compared to an average 91% transmittance rate for competitors' products.

Anti-Reflection

Effectively decreases glare and reflection; results in 77.3% visual improvement over standard glass and improved viewing comfort.

High Impact Resistance

Prevent panels from physical damage caused by accidental crash; resist force up to 227g steel ball free-falling from a height of 200cm.

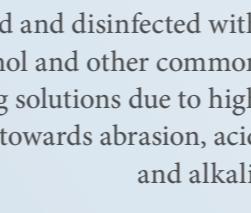

Water and Dust Resistance

Protect panels from dust and water; prolong displays life performance in dusty and damp environments.

Maintenance Made Easy

Easily cleaned and disinfected with water, alcohol and other common cleaning solutions due to high resistance towards abrasion, acid and alkali.

Anti-Burn-in™ Technology

Preserve image quality and prevent image retention.

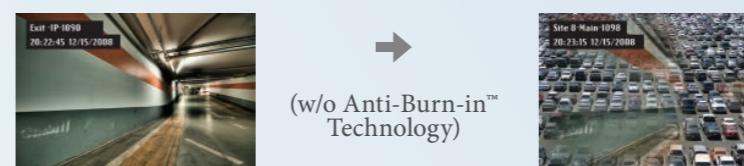

AG Neovo Anti-Burn-in™ technology is designed expressly to protect your investment by preventing costly image burn-in in the display's LCD panel, a common issue in security, surveillance and other environments where static images are displayed long periods of time.

Advantages of Anti-Burn-in™ Technology

Prevents Image Burn-in

Eliminates the possibility of image burn-in through innovative design that can be turned ON or OFF as desired.

What is "Burn-in" effect?

"Burn-in" effect is a phenomenon where images displayed for long periods of time cause the polarisation of the liquid crystal material contained within the TFT LCD panel. Polarisation of the liquid crystal material causes the image to be 'burnt' on the display.

Continuous Surveillance

Ensures uninterrupted display of surveillance video by shifting the image imperceptibly for 15 seconds every 8 hours rather than using a screensaver function.

Uninterrupted
DISPLAY

Investment Protection

Guarantees full life operation of the display by eliminating the possibility of damage caused by image burn-in.

✓ Investment
Guaranteed

Digital Signage Displays

AG Neovo offers versatile digital signage displays, including 4K high-resolution for crisp images, commercial-grade panels for mission-critical 24/7 operation, and all-in-one screens with Android OS for various applications. You can choose suitable displays based on your business scales to ensure eye-catching content to attract passing customers in retail stores, restaurants, hospitality, or public venues.

Video Wall Displays

AG Neovo offers businesses the best way to set up a seamless video wall in public spaces. By using multiple ultra-narrow bezel screens working in tandem, the immersive visual experience can draw the viewer's attention at first glance. With the native UniWall™ feature and AG Neovo's PID Command & Ctrl software, setting up video walls and managing deployed displays cannot be easier anymore.

Open Frame Displays

AG Neovo open frame displays are designed in various housings to serve a wide range of configurations and environmental needs. With customisable enclosures and industrial-grade design, the displays can provide outstanding visibility and reliable performance even in harsh outdoor environments and suit your industrial or commercial requirements.

Digital Kiosk Displays

AG Neovo offers freestanding digital signage kiosk displays with movable floor stands on removable casters for convenient mobility. Featured tempered glass on the front that stretches from top to base, a robust metal casing, and a safe and secure lock in the back, the digital kiosk is suitable to display digital signage content, information for the indoor public settings to attract walking-by customers.

Features	67 mm Slim Depth Design, HDMI Connection for Media Player/ IPC, Front-sided Tempered Glass Protection, Mobility
Remarks	Optional Touch Screen, USB Port

Security & Surveillance Monitors

As technology advances and a greater number of surveillance options become available, many security professionals are looking to reap the benefits from new display technology. While factors such as objectives, location, scale, and budget often dictate the type of display solutions adopted, qualities such as reliability, efficiency, and longevity remain mainstays in purchasing decisions for organisations.

Security & Surveillance Monitors

As technology advances and a greater number of surveillance options become available, many security professionals are looking to reap the benefits from new display technology. While factors such as objectives, location, scale, and budget often dictate the type of display solutions adopted, qualities such as reliability, efficiency, and longevity remain mainstays in purchasing decisions for organisations.

Healthcare Monitors

The displays used in medical scenarios usually require flexibility and easy field-site installation. Besides, these displays need to use EN/IEC 60601-1 certified power supplies, ensuring a safe medical environment for both patients and clinical professionals. Meanwhile, image clarity is also crucial for healthcare professionals to make the right decisions based on detailed images and visual presentations. Suppliers need to use advanced technology and provide reliable displays for increasing medical accuracy and efficiency.

Multi-touch Monitors

AG Neovo's multi-touch monitors and displays use the latest technology to meet a wide range of multi-touch solutions. They provide reliable quality for the professional and business market and permit direct, uninterrupted communication between users and machines. Their intuitive ease-of-use makes technology accessible to everyone. Self-service kiosks, information displays, medical systems and factory automation can be operated more efficiently with touch displays.

Interactive Displays

AG Neovo interactive displays and Meetboard offer you all the tools needed to present, collaborate, and share ideas right out of the box. Ranging from 65", 75" to 86", the interactive displays integrate a digital whiteboard application, wireless presentation capability. They are compatible with more apps, creating an innovative, engaging, hands-on collaboration for business meetings, huddle room brainstorming or classroom.

Mounts, Enclosures and Video Extenders

Installation methods and display accessories play an important role for display deployments in the application locations. Suppliers need to offer various mounting devices so that users can easily find the suitable solutions that meet their requirements. All related accessories are also needed to be available to increase user's application efficiency and performance.

	Colour	Black	Black	Black	Black	Black
Dimensions	Net (W x H x D)	330.0 x 126.0 x 75.0 mm (13.0" x 5.0" x 3.0") Per Piece	400.0 x 127.0 x 65.0 mm (12.5" x 5.0" x 2.6") Per Piece	240.0 x 113.0 x 60.0 mm (9.4" x 4.4" x 2.4") Per Piece	330.0 x 126.0 x 75.0 mm (13.0" x 5.0" x 3.0") Per Piece	400.0 x 726.0 x 65.0 mm (15.7" x 28.6" x 2.6") Per Piece
	Packing (W x H x D)	398.0 x 244.0 x 124.0 mm (15.7" x 8.8" x 4.9")	446.0 x 221.0 x 177.0 mm (17.6" x 8.7" x 7.0")	290.0 x 90.0 x 93.0 mm (11.4" x 3.5" x 3.7")	398.0 x 244.0 x 124.0 mm (15.7" x 8.8" x 4.9")	776.0 x 321.0 x 155.0 mm (30.6" x 12.6" x 6.1")
Weight	Net Weight	1.7 kg (3.7 lb)	2.1 kg (4.6 lb)	1.5 kg (3.3 lb)	1.9 kg (4.2 lb)	5.0 kg (11.0 lb)
	Gross Weight	2.1 kg (4.6 lb)	2.6 kg (5.7 lb)	1.7 kg (3.7 lb)	2.3 kg (5.1 lb)	6.0 kg (13.2 lb)

Display Enclosure

		LOC-55
Loading	Applicable Sizes	55", depth max. 120 mm
Power	Power Supply	230V AC/ 50Hz
	Power Consumption	min. 25W - max. 500W (without display and PC)
Temperature	Control	Industrial fans, heating module x 2, temperature control sensor x 2
	Operating Temperature	-20° to 40°C
Exterior	Enclosure	Steel
	Glass	6,4 mm laminated safety glass, Anti-reflective
	Protection Class/ IP Rating	IP65 (Front), IP54 (Back), NEMA 4
	Doors	Lock x 2, 4 keys
	Colour	Anthracite, DB 703 fine structure
Dimension	Net (WxHxD)	1410.0 x 881.0 x 200.0 mm (55.5" x 34.6" x 7.9")
	Packaging (WxHxD)	1460.0 x 931.0 x 250.0 mm (57.5" x 36.7" x 9.8")
Weight	Net Weight	62.0 kg (136.7 lb)
	Gross Weight	69.0 kg (152.1 lb)
Accessory	Optional	Stand (LOF-55)

Video Extenders

	HIP-Series
Units	HIP-TA
Unit Description	HDMI 1.3 Transmitter
HDMI Compliance	HDMI 1.3c
HDCP Compliance	Yes
Video Bandwidth	M-JPEG technology to process image compressing GIGABIT (10/1000) over LAN
Video Resolutions	480i / 480p / 720p / 1080i / 1080p
HDMI Transmission Range	Full HD: (1080p)-100 m (330 feet) (CAT5e) / 120 m (365 feet) (CAT6)HD: (720p/1080i)-100 m (330 feet) (CAT5e) / 120 m (365 feet) (CAT6)
Audio Support	Surround Sound (up to 7.1 ch) or Stereo Digital Audio
ESD Protection	[1] Human body model — ±15kV [air-gap discharge] & ±8kV [contact discharge] [2] Core chipset — ±8kV
Input	1 x RJ45 / 1 x HDMI
Output	1 x RJ45 / 1 x HDMI
Dimensions (L x W x H)	110.0 x 58.0 x 26.0 mm (4.3" x 2.2" x 1.0")
Weight	245.0 g
Power Supply	2 x DC 5V/1A
Power Consumption	3W Max Each
Operating Temperature	0° to 40°C (32° to 104°F)
Storage Temperature	-20° to 60°C (-4° to 140°F)
Relative Humidity	20-90% RH (no condensation)
